What is the TT?

The ATTS Temperament Test focuses on and measures temperament such as stability, shyness, aggressiveness, and friendliness as well as the dog's instinct for protectiveness towards its handler and/or self-preservation in the face of a threat. The test simulates a casual walk through a park or neighborhood where everyday life situations are encountered. During this walk, the dog experiences visual, auditory and tactile stimuli. **Dogs must be at least 18 months old to enter this test.**

The test takes about eight to 12 minutes to complete. The dog is on a loose six-foot (6') lead. The handler is not allowed to talk to the dog, give commands, or give corrections.
